

About Us

Who We Are

We are a group of children and young people who are looked after by Durham County Council.

We meet as a Children in Care Council (CiCC) every month to talk about what it's like being in care and how things could be better.

We bring our ideas and suggestions to our meetings and work with the adults within the council to improve things and give feedback.

Our History

The CiCC is supported by Investing in Children CIC, a children's rights organisation working in partnership with Durham County Council's 'Children's Care' service.
